WINTER 2018 | Electronics with Minecraft Redstone:

MONDAYS, 3:45pm-4:45pm • January 8-March 19, 2018 • No class Jan 15, Jan 29, Feb 19

Tuition: \$160 • 8 meetings, 1 hour per meeting • Grades 1st-4th • Classroom TBD

Intro to Game Design introduces students to important game design design concepts so they may use their creativity and problem-solving skills to create fun, complete and shareable games! The course teaches students important factors they need to consider when creating a game, such as game mechanics, player experience, art, story and how to work within your scope. Via discussions, activities and computer work lead by our instructors, students will learn how to make games from beginning to end. At the end of the session, students will leave with their own account information, so they may continue developing games at home and sharing them with friends and family.

WINTER 2018 | Website Design:

TUESDAYS, 3:45pm-4:45pm • January 16-March 6, 2018

Tuition: \$140 • 8 meetings, 1 hour per meeting • Grades 3rd-6th • Classroom TBD

Minecraft Chess helps students build critical-thinking skills and self-confidence by learning the revered game of chess in the fun format of Minecraft. With the mentorship of our trained chess coaches, students gain knowledge and interest in chess by utilizing both classic chess boards and an online platform in Minecraft. Incorporating variations of

chess allows for students to learn no matter their learning style, and will develop their skills in a way most comfortable to them. Students will leave Minecraft Chess with improved chess skills, sportsmanship and the ability to learn from mistakes in a challenging and entertaining way.

Registration is Open!
